

INTERNATIONAL MASTER'S PROGRAM WATER AND SUSTAINABLE HORTICULTURE SEPTEMBER 2024

In alignment with the Green Generation Plan, the Agadir Horticultural Complex (C.H.A) is pleased to launch an innovative and English-taught Master's program in **Water and Sustainable Horticulture (WSH)** for the **academic year 2024 – 2025**, representing its third cohort. This advanced program has a crucial role in tackling key challenges in water management and helps students to deepen their knowledge and raise their interest in sustainable horticulture.

Program Overview:

Water and Sustainable Horticulture (WSH) is a distinctive combination of theoretical knowledge and hands-on practical experience where the main goal is to provide the students with the necessary skills to:

- Enhance ecosystem functions within horticultural systems.
- Employ advanced irrigation and soil technologies to optimize horticultural production.
- Promote sustainable horticulture by minimizing water usage.
- Foster the adoption of innovative solutions for sustainable horticulture practices.

Admission Eligibility:

Prospective candidates should hold a bachelor's, master's, engineering degree, or an equivalent qualification in fields such as biology, botany, soil science, agriculture, agronomy, zootechnics, environment, and related disciplines.

Application Requirements:

To apply, please submit the following documents:

- *Curriculum vitae (CV);*
- *Cover letter,*
- *ID Card Copy*
- *University degrees, certificate and academic transcripts;*
- *Proof of B2-level English proficiency for French-speaking applicants.*

Application Deadline: Wednesday 25th September 2024

Selection Process:

Preselection results will be announced on **Friday 27th September 2024**, both on the registration platform and through email notifications to shortlisted candidates.

Successful candidates will be invited for interviews scheduled for **Monday 30th September 2024**. Final results will be published on the website and at the Horticulture complex no later than **Wednesday 2nd October 2024**.
